

# Electrical Safety

It's never too early to spark an interest in electrical safety! Keep children safe by sharing these tips.

Only plugs go into electrical outlets.

Never pull out a plug by its cord.

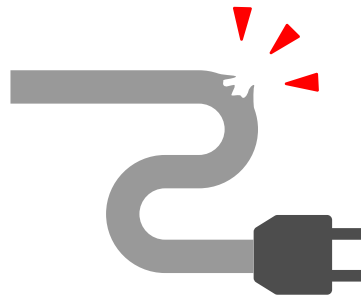

Keep electricity and water far apart.

Never play near powerlines or electrical equipment.

If you see broken cords or plugs, ask an adult to have them fixed.

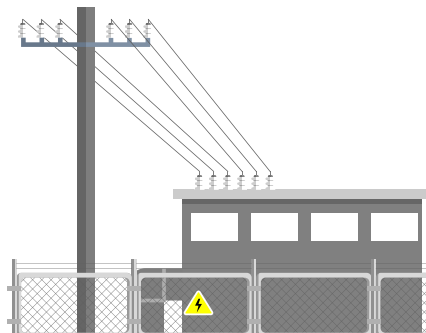

Never play around the big, metal transformer boxes with warning signs.

Never put anything in your toaster besides bread.

Don't climb the fence around an electrical substation.

Don't swim or play outside during a thunderstorm.
