

CAMP SAVE-A-WATT™

CAMP CRAFT: Wattson Thaumatrope

SUPPLIES NEEDED

- Wattson Thaumatrope Printout
- Straw or Pencil
- Tape
- Decorating Materials (markers, colored pencils, etc.)

STEPS

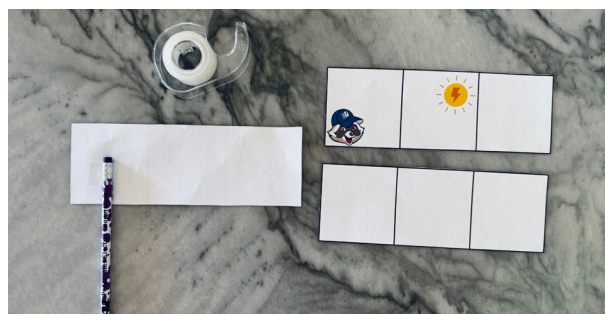

1

Choose and cut out the template along the outer black lines.

2

Tape a straw or pencil securely to the back of the blank square to create a handle.

3

Fold the other two squares in so both pictures show on each side and tape securely at the edges.

4

Place the pencil in the palms of your hand and spin in opposite directions to see your optical illusion.

5

Create your own design using the blank template. Note: The two pictures will overlap when spun.
