

Flying The Co-op: Classroom Worksheet

Using the video as a guide, complete this worksheet.
Write the stages in the correct order below.

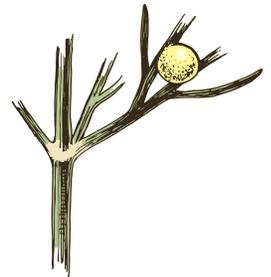

Adult

Egg

Pupa

Larva

Then, draw a line from the life cycle stage to the correct diagram.

Flying The Co-op: Classroom Worksheet

What is the name of the process a butterfly goes through to change from a pupa to an adult butterfly?

After class discussion, write what you believe happens after the four stages of a butterfly's life cycle?

After class discussion, identify other things that have a life cycle.

What type of plant helps feed and attract butterflies?

After class discussion, identify ways you can help conserve and protect the environment.

Using the seeds provided to you, build a pollinator plot at school.
Then, go to pec.coop/monarchs-edu for more information.
