

Notice: Revised Pedernales Electric Cooperative Specifications

Posted October 3, 2025

Underground Installation Specifications

- **Specification 560-050:** *Single-Phase Secondary Riser with Standoffs*
 - Added a second page to illustrate the use of an enclosure as an installation option. The first page of the drawing remained the same aside from a revised title indicating the non-enclosure option.
- **Specification 560-051:** *Single-Phase Secondary Riser with Standoffs to a Meter Rack*
 - Added a second page to illustrate the use of an enclosure as an installation option. The first page of the drawing remained the same aside from a revised title indicating the non-enclosure option.
- **Specification 560-052:** *Single-Phase Secondary Riser with Standoffs from Overhead Transformer*
 - Added a second page to illustrate the use of an enclosure as an installation option. The first page of the drawing remained the same aside from a revised title indicating the non-enclosure option.

Note: *Summaries listed here and in previous notices primarily include revisions considered technically significant to the referenced specifications. Edits considered technically insignificant may not be listed.*
